

TIMELINE

TIME DILLATION

1

1895

H.G. Wells popularized the idea of time travel with his novella "The Time Machine," in which a scientist invents a machine that allows him to travel through time.

2

1915

Albert Einstein's general theory of relativity expanded upon special relativity and introduced the idea that gravity can warp spacetime. This further influenced time travel concepts.

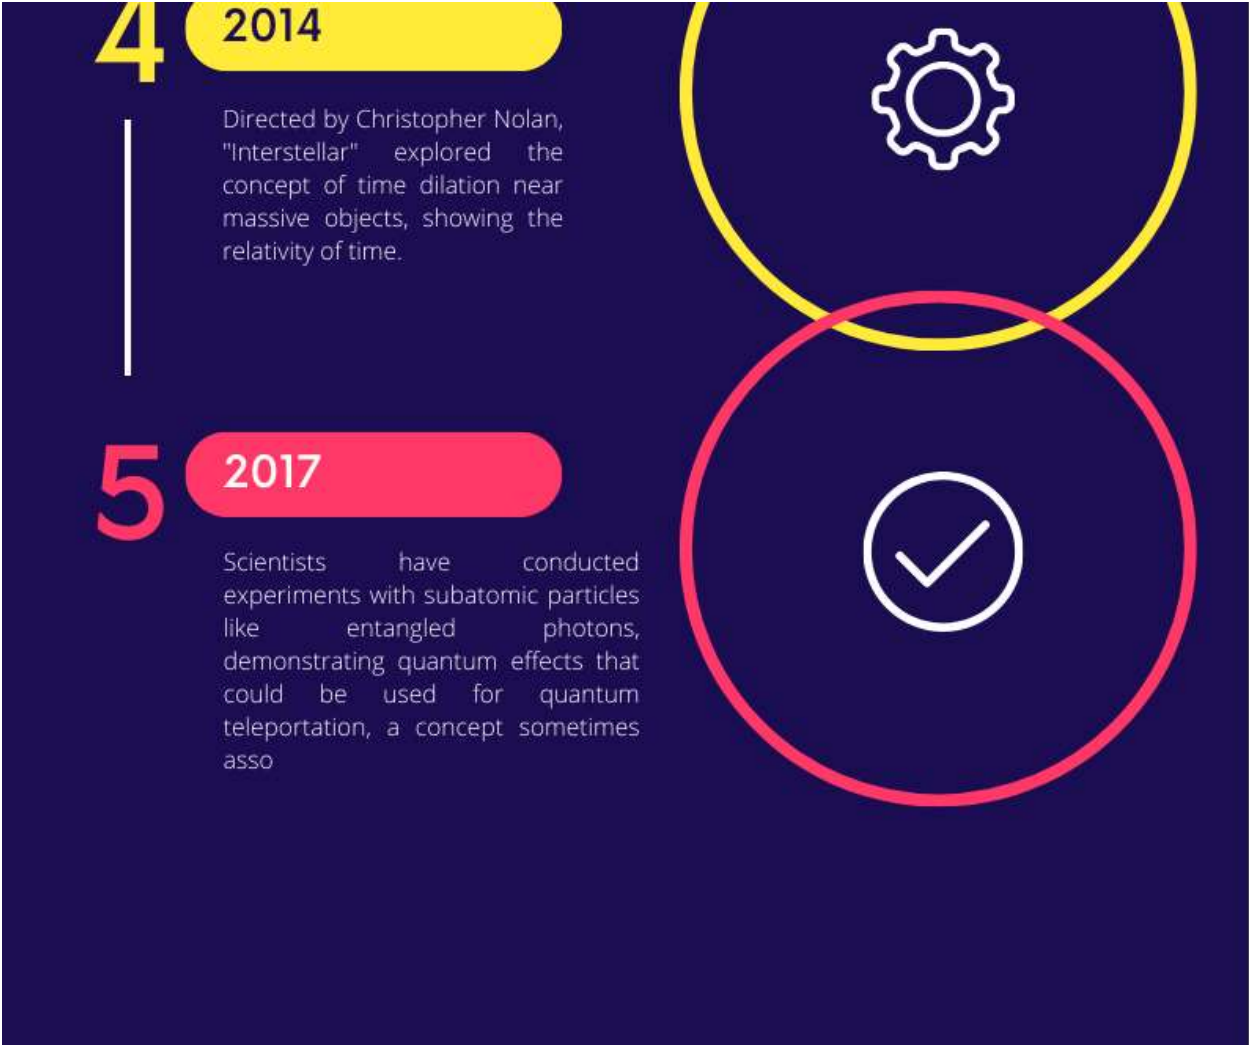

3

1963-PRESENT

The British science fiction series "Doctor Who" has featured time travel as a central theme since its inception, popularizing the concept in modern culture.
